- 1) **Roll Call (2:00 – 2:05)** Andrea Danes
- 2) **DMERC Crossovers to Medicaid in NCPDP Format (2:05 – 2:30)**  
Karen Bone, VIPS (PowerPoint presentation)  
Although the NCPDP workgroup has not officially approved the Medicare proposal, this presentation will give your state a “heads up” on how the DMERCS plan to send you crossover claims in the NCPDP Batch 1.1 format.
- 3) **DEERS Medicaid Eligibility Match (2:30 – 3:00)**  
Sherry McKenzie - TRICARE Management Activity (PowerPoint presentation)  
Many states currently perform annual eligibility matches with the Department of Defense to identify Medicaid beneficiaries who are eligible for benefits under their program. Learn how these annual matches will change due to the HIPAA mandate.
- 4) **Possible 12/31/03 Extension for Medicaid Local Codes (3:00 – 3:20)**  
Open Discussion: Many email messages have been flying around our ListServ related to the possible extension of Medicaid local codes until dates of service after 12/31/03. While this may be great news for those of us furiously cross-walking, how will this affect the industry as a whole? Will translators understand that CMS has changed the rules?
- 5) **WEDI Types 1 – 4 Editing Rejection Level (3:20 – 3:25)** Andrea Danes  
Open Discussion: There are many states who will reject at many levels within the X12 transactions. Where does your state stand? Additionally, CMS has been rumored to have an opinion on the level at which we reject for the WEDI-defined edits. Will that change your position?
- 6) **Next Meeting & New Agenda Items (3:25 – 3:30)** Andrea Danes
